TV Hut refurbishment report – No1.

- Nick VK5NJS, has plans to freshen up the exterior, including some minor repairs & repainting.
- Kate, together with Nick & Peter have discussed the proposed layout of the operating console, with material being purchased to build a new permanent desk.
- Kate is hopeful of acquiring a new chair that is ergonomically friendly.
- The 19" equipment rack layout has been finalised & construction has commenced.
- Andrew VK5MAS has donated 2 small cabinets for the storage of loose items in the hut.
- Greg VK5ZGY has offered to build shelving similar to our shed to store all the cable drums plus other items needed for the event.
- Following a recent advert on Facebook, we have acquired, for free, sufficient small flat screen TV's to replace all the old heavy TV's. These small screens are for use in race control, admin, timing, & the stewards office, plus some spares.
- We are seeking a nice air conditioner, split system type, to be permanently mounted. Please keep a look out for one.
