Rally Report for April 2024

On the Saturday evening of May 18th, the South Eastern Automobile Club will be conducting another navigation trial in the Burrungule & Glencoe forests, west of Mount Gambier.

SERG has again been asked to provide the comms for this event.

Rally Control will be based at SEAC Park & will again utilise the Club's 2m repeater on The Bluff as it provides an excellent coverage of the rally area.

Anyone who can assist with the comms for this event, please contact me with your availability.

It has been suggested that a SERG member with 2m radio either travel in a sweep car, or follow a sweep car to improve the comms with the sweep vehicles. If anyone is interested in this role, please let me know.

Peter VK5BE
