Repeater report for 17/10/2025

A quiet month no new activity with the repeaters. That's good news. Unfortunately, Echolink has been a challenge due to difficulties with the modem/router and maybe other stuff in the Echolink links. Nick has made numerous trips to The Bluff to reboot things. Thanks Nick. I've observed that the coverage towards Kingston from Millicent is much improved. I was able to work the Mt Graham repeater when 50km from Millicent with my handheld inside the car. Pretty good. The antenna change has been like magic. Jack reports good signals in Southend.

Peter has been looking at moving the 2M beacon antenna to distance it from the repeater antenna. Peter VK5BE, Steve VK5GL and I visited the site and Peter removed the beacons to Maxwell VK5ACs QTH for repair to the 70cm beacon.

That's it for this month.
John VK5DJ
Repeater coordinator
