Rally Report for July 2026

Recently, on June 21st, a large team comprising 23 members from the South East Radio Group provided the Road Closure marshals & communication points, and Race Control management for the RPM Fabrication Forest Rallysprint, that was held in the pine forests near Compton.

This was the first time for several of our members officiating at a motor sport event, and presented themselves in a very professional manner.

The event ran extremely smoothly with minimal delays or incidents, thus we were able to finish on time.

Yet again, SERG has received numerous accolades from both Motor Sport officials, & competitors for the job we did, again stating the event could not run without us.

I wish to thank all those that were able to assist, with a special thanks to Nick VK5NJS who assisted me with the event planning & set up, James VK3JBM who travelled from Ballarat to manage Race Control, & Tim VK5AV for towing the Club trailer.

Planning is now under way for more motor sport events, firstly at the Shell V-Power Motor Sport Park at The Bend in September, followed by the annual Legend of the Lakes Hillclimb in November.

I have now received confirmation that the next Touring Road Event will be held on the evening of Saturday August 15th, based at SEAC Park.

If you wish to assist on that evening, please contact me via the usual methods.
