Rally Report for October 2026

Our next motorsport event will be a mini-TRE on the Friday evening of October 30th, based at the Forestry Airstrip in the Caroline Forest. The event will commence at 6.30pm with a daylight stage in the form of a Motorkhana. Then, when its dark, at around 7.30pm, cars will depart on the first of 3 stages, with a 10 minute service break between stages.

Our SERG Comms trailer will be in use again, being used as Race Control. As most of the control locations are nearby, we plan to use a simplex frequency of 146.550 MHz, rather than tie up our repeater network. Some points will only need a hand held radio.

If you would still like to assist, contact me via the usual methods.

Finally, the annual Legend of the Lakes Hillclimb on November 13-14-15th is also rapidly approaching with planning well under way. Most spots are filled, but I'm still needing people for the Friday, plus some back-up support for all 3 days. Many thanks to all that have offered their support for this major event.

The TV hut will be shipped to the usual spot at the Valley Lake on Wednesday November 4th, with setting up commencing next day, giving us 7 days to complete.
