SERG EDUCATION REPORT NOVEMBER 2026

This past month saw me undertake a couple of training sessions at Foundation level and then subsequently conduct an examination for one candidate. The outcome was a positive one, with the candidate now waiting for ACMA to process the submitted paperwork.
We look forward to hearing a new amateur on air soon.
Thanks to Andrew VK5MAS for passing on his details so we could get the process underway.

At this point there is nothing new on the horizon.

An idea I have for the new year is to maybe encourage some foundation licence holders to study for the Regulations exam, maybe with some classes to go through the material. They could then attempt that exam and get it out of the way. This will be the first step towards an upgrade to Standard or Advanced. There is no cost to sit an exam, you only pay when you need the ACMA to process something new like a new recognition certificate or a new callsign. Any members interested in this please let me know.

That's all for this month.
